Panasonic Industry Co., Ltd.

**Change notice: Change of bracket processing method
for Compact AC Geared Motor Shin-G Series C&B (Clutch & Brake) Motor**

Thank you for your daily support and efforts to our business.

As described below, we will change the bracket processing method from "lathe" to "milling" due to our circumstances.

We would appreciate your understanding and cooperation with this matter.

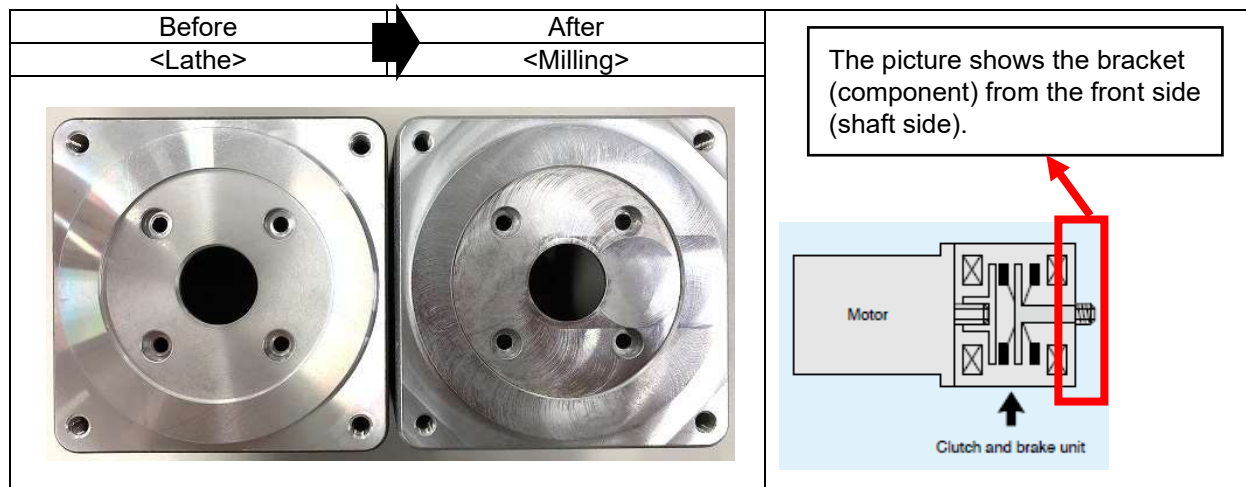

- Affected Models: C&B motors with flange sizes of 70 mm sq. and 80 mm sq.
(Part No.) Single-phase Induction Motor: M71X15H4L, M71X15H4Y, M81X25H4L, M81X25H4Y
Variable speed Induction Motor: M71X15H4L, M71X15H4Y, M81X25H4L, M81X25H4Y
3-phase Motor: M8MX25H4Y, M8MX25HK4Y

■ Change contents:

By changing the processing method, the appearance of the surface changes.

■ Description of the Change:

We will change the bracket processing method from "lathe" to "milling".

- Change schedule: Starting from February 2023 production lot onwards.

■ Others:

1. This change will not have any affect to product dimensions and functions.
2. About repair service
Compact AC Geared Motors are for analysis only, not for repair.
Please note that if a replacement product is required, the changed product will be provided.

END
